## OPERATION WHITE FLAG

**The Coalition for the Homeless** coordinates a program to ensure that homeless people can find shelter during severe weather emergencies. **It goes into effect when:**

1. The temperature or the wind chill is at 35 degrees or lower, OR the temperature or heat index is 95 degrees or higher, OR an ozone alert has been called.
2. A white flag will fly outside each participating agency to show that Operation White is in effect. As long as one of the weather conditions listed in #1 above continues, you may remain inside at any of the participating agencies. ***It does not mean a bed will be available.***

3. If you are not eligible for services at a particular shelter, the staff may not let you in. If not, they should attempt to find you another place to stay.

The federal Fair Housing Act prohibits housing discrimination based on race, color, national origin, religion, sex, disability, and familial status (i.e., presence of children in the household). The Fair Housing Act does not specifically include sexual orientation and gender identity as prohibited bases. However, the Department of Housing and Urban Development (HUD) assumes that a "provider" that makes decisions about eligibility for or placement into single-sex emergency shelters or other facilities will place a potential client (or current client seeking a new assignment) in a shelter or facility that corresponds to the gender with which the person identifies, taking health and safety concerns into consideration. A client's or potential client's own views with respect to personal health and safety should be given serious consideration in making the placement.
