

# Do you work or volunteer with Veterans experiencing homelessness ?

Project CHALENG (Community Homelessness Assessment, Local Education and Networking Groups) is a yearly survey open to Veterans to provide feedback on homeless support services.

Since 1994, information gathered from CHALENG surveys has assisted VA in developing new services for Veterans, including the [Homeless Veteran Dental Program](#), the expansion of the [Veteran Section 8](#) program, [Veterans Justice Outreach](#) programs and the [Supportive Services for Veteran Families](#) program.

Your VOICE counts! Tell us what services are needed and which have been most helpful to homeless Veterans in your community. If you are unsure about access to specific services, just mark “N/A” and ANSWER the service questions you do know about- both the ones available and the one you know may be needed.

**Please take the CHALENG survey :**
